CHASE'S
Spring Surplus
BULLETIN

SORRY, but due to unprecedented shortage of labor, and an extremely wet February, we are unable to accept any more orders for balled and burlapped material, either Trees or Evergreens. The stock listed herein is all in storage in excellent condition. We will do our best to get it to you promptly. In placing your order, if you will give us the privilege of substituting grades, it will help speed.

TO OBTAIN the 100 rate price, your order must consist of at least 50 plants, and not less than 10 of a variety or grade. Orders for less than 10 of a variety or grade will be invoiced at an advance of 25% on such items regardless of the size of the total order.

TERMS:

To firms with established credit, 2% 10 days, Net 30. We will pack NR stock free for cash in lieu of all cash discounts.

Chase Nursery Company
CHASE, ALABAMA

ROSES

XX Grade carries 30-36" of wood and 4 or more canes.
No. 1 Grade carries an average of 30" of wood and at least 3 canes.
Medium Grade averages 18" of wood and at least 3 canes.
No. 2 Grade carries 12-15" of wood and 2 or more canes.
L/O are mostly single stems, with 8-12" of wood.

		XX	No. 1	Medium	No. 2
OWN ROOT ROSES:	**Per 10**	**$ 3.50**	**$ 2.50**	**$ 2.00**	**$ 1.50**

Belle Poitevine (Rugosa)		——	——	——	490
Hansa (Rugosa)		465	2900	700	——
Setigera (Rugosa)		——	140	510	425

NOTE

We wish we could offer our usual fine assortment of Own Root Climbers, and Budded Roses, including Hybrid Teas, Hybrid Perpetuals, and Large Flowering Climbers, but the demand for roses this season has been so heavy and the crop so short that we are completely sold out. The outlook for next year is promising, but still far in the future. In the meanwhile the Roses listed above are Roses, and useful for that customer who just must have some. They are especially useful for mass and hedge plantings, thanks to their fine heavy foliage.

LINING-OUT STOCK

Deciduous Shrubs and Trees

The following stock is a selected grade from our regular two-year field grown stock. It is not bed-grown, and has a well established root system. Exceptions are designated "S", meaning seedlings from beds. All culls rigidly excluded.

LINING-OUT STOCK — Continued

Conifers

The following are two year field grown, with fine fibrous roots from being twice transplanted. Now is the time to plant lining-out evergreens. With labor so scarce, the folks who can plant now will be the ones with finished stock a few years hence. "Watch Chase's Liners Grow Into Dollars For You!"

TEXAS, September 12, 1943: "Chase's services have satisfied me for years. We will continue to be friends."

Memorandum

See Chase early next season for those scarce items.
